

【 JPCA Show 2014 (The 44th International Electronic Circuits Exhibition) 】

Period: June 4th 2014 ~ June 6th 2014 Place: Tokyo Big Sight (East Hall)

Dear Customers

Thank you very much for taking the time from your busy schedules to visit the PWB Tech 2014 exhibition, held as part of JPCA Show 2014 on June 4-6 .

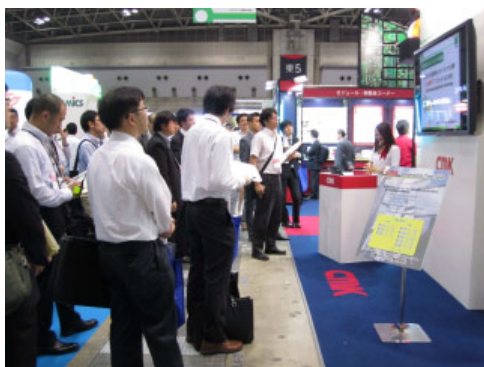

We are constantly working to downsize printed circuit boards and increase their density with an eye to the future of the electronics industry.

In addition, we have a large number of experienced staff members capable of achieving functional enhancement, specifically in stiffness, heat resistance, heat release, insulation and current capacity, with top-level technologies.

We will sincerely respond to your requests to ensure your satisfaction. We look forward to hearing from you.

Thank you in advance for your continued support and patronage for CMK Corporation and its printed circuit boards.

Sincerely,

CMK Corporation
JPCA Show 2014 Organization Office
